

April 4, 2005

I, Asia Montgomery, am making this statement on my own behalf, without any coercion from anyone.

I have been approached by Detective John Wade of the Russellville Police Department and have been asked to make false statements to the effect that Dr. Randeep Mann has agreed to have sex with me in return for unlimited medications. In addition, Detective Wade has asked me to wear a wire into Dr. Mann's office in hopes of entrapping him into making such statements.

Dr. Mann has been nothing been professional in all his dealings with me. He has never behaved in any manner other than a most professional one. His conduct has always been principled and ethical. He is an excellent doctor and has always treated me with respect and courtesy.
